## B14 Stainless Steel Potato Peeler

- Bold Peelers are leaders in the fish frying and catering industry, combining ease of operation with reliability.
- Stainless steel construction ensures a hygienic rust free machine, requiring a minimum of maintenance.
- The stainless steel peeling plate and liner can be removed for recoating without the need for an engineer, keeping service cost to a minimum.
- Nylon brush fitted to the abrasive bottom plate guards against blockages to the waste outlet.
- The waste outlet has three different positions and can be varied to suit individual installation requirements.
- Push button on/off controls with a no-volt release to protect the operator.
- A Class A air brake is fitted to the water inlet.
