## S1 Stainless Steel

### Chipper Machine

- The S1 Compact Chipper carries on the same Bold tradition of quality engineering and reliability.
- Drainer, worktop or stand mounted and with its compact dimensions and big output has been designed to fit where space is at a premium.
- Stainless steel construction and unique design of cutting action ensures maximum yield – “more chips, less bits” – producing a quality chip.
- Supplied with an extension chute to guide the chips directly into a bucket or container.
- Easy to clean, no tools required with minimum maintenance.
- Chip size can be changed in seconds or blades can be replaced individually.
- Safety interlock switches are fitted to the hopper knob and knife block to protect the operator.
- The Bold range of chippers and peelers are leaders in the fish frying and catering industry.
