

## **TreadSafe® GRP Product Range**

TreadSafe® GRP is manufactured from tough, durable fibreglass that incorporates an abrasive anti-slip to offer a cost-effective, long term solution to slip problems in internal and external industrial and public access areas. Suitable for use in the harshest of environments, TreadSafe® GRP is resistant to a wide range of chemicals. It can be cut and drilled on site for easy, quick fitting onto a variety of surfaces including chequer-plate, concrete, steel or wood.

The range comprises safety edgings, stair treads with matching landing covers, flat decking sheets, grating, ladder rung covers and tactile floor tiles. A cut to size/drilling service is available.

### **Safety Edgings:**

- 3mm thick edgings with a feathered edge to prevent a trip hazard
- Choice of abrasive grit sizes for internal or external applications
- Meets current UK Building Regulations and Disability Discrimination Act Part 111
- Colour choices: high visibility yellow or white. Photo-luminescent option
- Standard sizes: 70 x 30mm nosing and 55 x 55mm nosing in lengths of 3000mm, 1500mm, 1000mm and 750mm

### **Stair Treads/Landing Covers:**

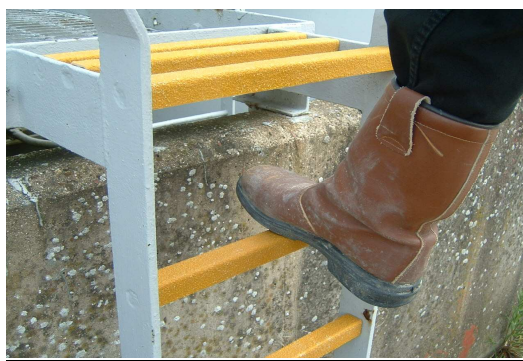

- 4mm thick GRP suitable for internal and external applications
- Meets current UK Building Regulations and Disability Discrimination Act (October 2004)
- Landing covers have a depth of up to 1200mm to allow most landing areas and top steps to be covered without the need for joints
- Colour choices: black with yellow or white highlighted leading edge, and solid stone
- Standard sizes: Treads - 345 x 55mm nosing in lengths of 3000mm, 1500mm, 1000mm and 750mm. Landing covers – 1200mm x 55mm nosing in lengths of 2440, 1200 and 800mm

### **Flat Decking Sheets:**

- 4mm thick decking sheets designed for walkways, ramps, gangways and factory floors
- Withstands movement of forklift trucks and other heavy duty vehicles
- Colour choices: black, stone and high visibility yellow. Any BS or RAL colour available subject to minimum order quantities
- Standard sizes: 2440 x 1200mm, 1200 x 1200mm, 800 x 1200mm

### **Ladder Rung Covers:**

- Designed specifically to fit over traditional steel ladder rungs on fire escapes, service ladders and the majority of access ladders
- Easing fixing using a high quality polyurethane structural adhesive
- Standard sizes: 25 x 25mm in lengths of 1200mm, 600mm and 400mm. Bespoke sizes available
- Colour: High visibility yellow

## Tactile Floor Tiles:

- 4mm thick GRP tile incorporating raised profiles to warn visually impaired people as they are approaching a change in elevation such as railway platforms, pedestrian crossings, and hazards such as stairs.
- Available in on-street blister, off-street blister and corduroy designs
- Quick and easy to fit by gluing and screwing to the existing substrate
- Standard size: 400 x 400mm
- Colour choices: Buff or red

## Grating:

- Major advantage over metallic grating is that GRP grating sheets can be repeatedly deflected without causing permanent deformation
- Concave surface finish for light foot traffic areas such as walkways, workstations and platforms
- Gritted surface finish for heavy industrial applications
- Tested in accordance with BS 476 Part 7 and meets performance requirements of Class 1. Phenolic resin option available.
- Standard sizes: 3660 x 1220mm, 3010 x 996mm, 1985 x 996mm with 25mm or 38mm thickness.
- Colour choices: green and grey. Any BS or RAL colour available subject to minimum order quantities
